## Chapter 3: Water Monitoring

Figure 3.1	Salinity in water .....	21
Figure 3.2	Dissolved organic carbon in water .....	22
Figure 3.3	Total suspended solids in water .....	23
Figure 3.4	Dissolved arsenic in water .....	25
Figure 3.5	Total arsenic in water .....	25
Figure 3.6	Dissolved cadmium in water .....	26
Figure 3.7	Near-Total cadmium in water .....	26
Figure 3.8	Dissolved chromium in water .....	27
Figure 3.9	Total chromium in water .....	27
Figure 3.10	Dissolved copper in water .....	28
Figure 3.11	Near-Total copper in water .....	28
Figure 3.12	Dissolved lead in water .....	29
Figure 3.13	Near-Total lead in water .....	29
Figure 3.14	Dissolved mercury in water .....	30
Figure 3.15	Total mercury in water .....	30
Figure 3.16	Dissolved nickel in water .....	31
Figure 3.17	Near-Total nickel in water .....	31
Figure 3.18	Dissolved selenium in water .....	32
Figure 3.19	Total selenium in water .....	32
Figure 3.20	Dissolved silver in water .....	33
Figure 3.21	Total silver in water .....	33
Figure 3.22	Dissolved zinc in water .....	34
Figure 3.23	Near-Total zinc in water .....	34
Figure 3.24	Dissolved PAHs in water .....	35
Figure 3.25	Total PAHs in water .....	35
Figure 3.26	Dissolved PCBs in water .....	36
Figure 3.27	Total PCBs in water .....	36
Figure 3.28	Dissolved chlordanes in water .....	37
Figure 3.29	Total chlordanes in water .....	37
Figure 3.30	Dissolved DDTs in water .....	38
Figure 3.31	Total DDTs in water .....	38
Figure 3.32	Dissolved diazinon in water .....	39
Figure 3.33	Total diazinon in water .....	39
Figure 3.34	Dissolved HCHs in water .....	40
Figure 3.35	Total HCHs in water .....	40
Figure 3.36	Dissolved chlorpyrifos in water .....	41
Figure 3.37	Total chlorpyrifos in water .....	41
Figure 3.38	Dissolved dieldrin in water .....	42
Figure 3.39	Total dieldrin in water .....	42
Figure 3.40	Aquatic bioassay results for 1997 .....	43
Figure 3.41	Average trace element concentrations in water (1989–1997) .....	44
Figure 3.42	Average dissolved + particulate organic concentrations in water (1993–1997) .....	53
Figure 3.43	North Bay ambient water toxicity to <i>Mysidopsis bahia</i> in February 1996.....	61
Figure 3.44	North Bay ambient water toxicity to <i>Mysidopsis bahia</i> in January 1997 .....	63

Figure 3.45	Mysid mortality at Mallard Island, 1997–1998 .....	65
Figure 3.46	Map showing locations of USGS sampling stations .....	68
Figure 3.47	Daily Delta Outflow Index for 1997 and the changing distribution of surface salinity .....	72
Figure 3.48	Delta Outflow Index and concentrations of total suspended solids .....	75
Figure 3.49	Delta Outflow Index and concentrations of chlorophyll <i>a</i> .....	77
Figure 3.50	Delta Outflow Index and concentrations of dissolved oxygen .....	78
Figure 3.51	Delta Outflow Index and surface water temperatures .....	79
Figure 3.52	Location of study area and sampling sites .....	83
Figure 3.53	Suspended-solids concentration time series at Honker Bay sampling sites .....	84
Figure 3.54	Standard deviation in suspended-solids concentrations among sites .....	86
Figure 3.55	Delta outflow and suspended-solids concentrations at Mallard Island and site <i>cmid</i> .....	87
Figure 3.56	Wind speed, suspended-solids concentration, and square of bottom orbital velocity at site <i>cmid</i> .....	89
Figure 3.57	Square of bottom orbital velocity, suspended-solids concentration, and water depth at site <i>cmid</i> , February 23–March 15, 1997 .....	90

## Chapter 4: Sediment Monitoring

Figure 4.1	Arsenic in sediment .....	103
Figure 4.2	Cadmium in sediment .....	103
Figure 4.3	Chromium in sediment .....	104
Figure 4.4	Copper in sediment .....	104
Figure 4.5	Lead in sediment .....	105
Figure 4.6	Mercury in sediment .....	105
Figure 4.7	Nickel in sediment .....	106
Figure 4.8	Selenium in sediment .....	106
Figure 4.9	Silver in sediment .....	107
Figure 4.10	Zinc in sediment .....	107
Figure 4.11	Total PAHs in sediment .....	108
Figure 4.12	Total PCBs in sediment .....	108
Figure 4.13	Total DDTs in sediment .....	109
Figure 4.14	Total chlordanes in sediment .....	109
Figure 4.15	Dieldrin in sediment .....	110
Figure 4.16	Sediment bioassay results for 1997 .....	111
Figure 4.17	Average trace element concentrations in sediments (1991–1997) .....	113
Figure 4.18	Average trace organic concentrations in sediments (1991–1997) .....	118
Figure 4.19	An example of intermediate disturbance effects on the number of species as contamination increases .....	127
Figure 4.20	BPTCP reference sites and hot spots .....	134
Figure 4.21	Example of a scatter plot for PAHs .....	143
Figure 4.22	Example of a scatter plot for metals .....	144
Figure 4.23	Results of TIE manipulations on 25% sediment elutriate from Grizzly Bay .....	152
Figure 4.24	Results of TIE manipulations on 25% and 50% sediment elutriate from Sacramento River .....	153
Figure 4.25	Results of TIE manipulations on 25% and 50% sediment elutriate from San Joaquin River .....	154

## Chapter 5: Bivalve Monitoring

Figure 5.1	Arsenic concentrations in transplanted bivalves .....	170
Figure 5.2	Cadmium concentrations in transplanted bivalves .....	171
Figure 5.3	Chromium concentrations in transplanted bivalves .....	172
Figure 5.4	Copper concentrations in transplanted bivalves .....	173
Figure 5.5	Lead concentrations in transplanted bivalves .....	174
Figure 5.6	Mercury concentrations in transplanted bivalves .....	175
Figure 5.7	Nickel concentrations in transplanted bivalves .....	176
Figure 5.8	Selenium concentrations in transplanted bivalves .....	177
Figure 5.9	Silver concentrations in transplanted bivalves .....	178
Figure 5.10	TBT concentrations in transplanted bivalves .....	179
Figure 5.11	Zinc concentrations in transplanted bivalves .....	180
Figure 5.12	Total PAH concentrations in transplanted bivalves .....	181
Figure 5.13	Total PCB concentrations in transplanted bivalves .....	182
Figure 5.14	Total DDT concentrations in transplanted bivalves .....	183
Figure 5.15	Total chlordane concentrations in transplanted bivalves .....	184
Figure 5.16	Dieldrin concentrations in transplanted bivalves .....	185
Figure 5.17	Bivalve survival .....	186
Figure 5.18	Condition indices .....	187
Figure 5.19	Trace element accumulation or depuration in transplanted bivalves (1993–1997) .....	189
Figure 5.20	Trace organic accumulation or depuration in transplanted bivalves (1993–1997) .....	194
Figure 5.21	Trace organic trends at three RMP Base Program stations .....	198
Figure 5.22	Site map of water quality and tissue monitoring sites .....	200
Figure 5.23	Survival in mussels versus salinity .....	201
Figure 5.24	Trendlines for unadjusted copper in mussels at four sites (1993–1997) .....	204
Figure 5.25	Trendlines for unadjusted mercury in mussels at four sites (1993–1997) .....	204
Figure 5.26	Trendlines for unadjusted PAHs in mussels at four sites (1993–1997) .....	205
Figure 5.27	Trendlines for unadjusted PCBs in mussels at four sites (1993–1997) .....	205
Figure 5.28	Trendlines for adjusted PAHs in mussels at four sites (1993–1997) .....	206
Figure 5.29	Trendlines for adjusted PCBs in mussels at four sites (1993–1997) .....	206
Figure 5.30	Trendlines for unadjusted copper in oysters at two sites (1993–1997) .....	208
Figure 5.31	Trendlines for unadjusted mercury in oysters at two sites (1993–1997) .....	208
Figure 5.32	Trendlines for unadjusted PAHs in oysters at two sites (1993–1997) .....	209
Figure 5.33	Trendlines for unadjusted PCBs in oysters at two sites (1993–1997) .....	209
Figure 5.34	Trendlines for adjusted copper in oysters at two sites (1993–1997) .....	210
Figure 5.35	Trendlines for adjusted mercury in oysters at two sites (1993–1997) .....	210
Figure 5.36	Trendlines for adjusted PAHs in oysters at two sites (1993–1997) .....	211
Figure 5.37	Trendlines for adjusted PCBs in oysters at two sites (1993–1997) .....	211
Figure 5.38	Trendlines for unadjusted copper in clams at one site (1993–1997) .....	213
Figure 5.39	Trendlines for unadjusted mercury in clams at one site (1993–1997) .....	214
Figure 5.40	Trendlines for unadjusted PAHs in clams at one site (1993–1997) .....	214
Figure 5.41	Trendlines for unadjusted PCBs in clams at one site (1993–1997) .....	215
Figure 5.42	Trendlines for adjusted PCBs in clams at one site (1993–1997) .....	215

## Chapter 6: Pilot and Special Studies

Figure 6.1	Map of Estuary Interface Pilot Study stations .....	222
Figure 6.2	Estuary Interface Pilot Study hydrographs .....	224

Figure 6.3	Concentrations of dissolved trace elements in water at the EIP sites compared with RMP stations averaged by Bay reach .....	226
Figure 6.4	Concentrations of total trace elements in water at the EIP sites compared with RMP stations averaged by Bay reach .....	227
Figure 6.5	Concentrations of dissolved trace organics in water at the EIP sites compared with RMP stations averaged by Bay reach .....	228
Figure 6.6	Concentrations of total trace organics in water at the EIP sites compared with RMP stations averaged by Bay reach .....	229
Figure 6.7	Normalized versus non-normalized values: Concentrations of trace elements in sediments for the Standish Dam and Guadalupe River sites compared with RMP stations averaged by Bay reach .....	232
Figure 6.8	Concentrations of trace elements in sediments for the Standish Dam and Guadalupe River sites compared with RMP stations averaged by Bay reach .....	235
Figure 6.9	Concentrations of trace organics in sediments for the Standish Dam and Guadalupe River sites compared with RMP stations averaged by Bay reach .....	236
Figure 6.10	PCB fingerprint of the water particulate fraction from the wet season cruise .....	237
Figure 6.11	Concentrations of trace elements on water particulates and sediments .....	238
Figure 6.12	Sampling locations for 1997 RMP fish contamination monitoring .....	243

## Chapter 7: Related Monitoring Activities

Figure 7.1	Location of the Japanese foraminiferal studies reporting the presence of <i>Trochammina hadai</i> .....	250
Figure 7.2	Percentage abundance of <i>T. Hadai</i> in the RMP foraminiferal samples (1995–1997) .....	254
Figure 7.3	Speciation and concentration of nickel in San Francisco Bay .....	261

## Chapter 8: Other Monitoring Activities

Figure 8.1	Ambient Program monitoring stations .....	270
------------	---	-----

# List of Tables

## Chapter 1: Introduction

Table 1.1	Parameters analyzed in water, sediment, bivalve tissue during the 1997 sampling of the San Francisco Estuary .....	3
Table 1.2	Summary of RMP 1997 sampling stations and activities.....	7
Table 1.3	1997 RMP contractors and principal investigators .....	8

## Chapter 2: 1997 Review Implementation

Table 2.1	Recommendations in the Five-Year Review report that can be implemented simply and directly .....	13
Table 2.2	Recommendations in the Five-Year Review report that suggest specific studies or activities to be undertaken by the RMP .....	15
Table 2.3	Recommendations in the Five-Year Review report that suggest more fundamental activities to be undertaken by the RMP .....	16

## Chapter 3: Water Monitoring

Table 3.1	Summary of RMP episodic toxicity testing pilot project, 1996–1997 .....	62
Table 3.2	Summary of RMP episodic toxicity testing, 1997–1998 .....	64
Table 3.3	Dates of USGS water-quality sampling in the San Francisco Bay-Delta in 1997 .....	69
Table 3.4	Summary of hydrographic/water quality conditions in the San Francisco Estuary around the periods of RMP water sampling, 1993–1997 .....	73
Table 3.5	Statistical analysis of suspended-solids concentration data, December 1996–March 1997 .....	85
Table 3.6	Statistical analysis of suspended-solids concentration data, April–August 1997 .....	85
Table 3.7	Water quality guidelines used for evaluation of 1997 RMP results .....	95
Table 3.8	Summary of trace elements that were above water quality guidelines for 1997 RMP water samples .....	96
Table 3.9	Summary of trace organic contaminants that were above water quality guidelines for 1997 RMP water samples .....	97

## Chapter 4: Sediment Monitoring

Table 4.1	The most common and abundant species in each benthic assemblage .....	123
Table 4.2	List of indicator species .....	125
Table 4.3	Tolerance limits for four toxicity test protocols .....	135
Table 4.4	Stations-Surveys .....	142
Table 4.5	Sediment thresholds .....	146
Table 4.6	Summary of testing conducted on River stations during 1996–1997 .....	149
Table 4.7	Results of metals analysis for elutriate samples .....	151
Table 4.8	Sediment quality guidelines for evaluation of chemical concentrations in sediment .....	159
Table 4.9a	Sediment trace element concentrations above Effects-Range guidelines during the wet- and dry-sampling periods in 1997 .....	160
Table 4.9b	Sediment trace organic concentrations above Effects-Range guidelines during the wet- and dry-sampling periods in 1997 .....	161
Table 4.10a	Sediment trace element concentrations above Ambient Sediment Criteria during the wet- and dry-sampling periods in 1997 .....	162

Table 4.10b	Sediment trace organic concentrations above Ambient Sediment Criteria during the wet- and dry-sampling periods in 1997 .....	163
Table 4.11	Summary of sediment quality guideline exceedances and sediment toxicity in 1997 .....	165

### **Chapter 5: Bivalve Monitoring**

Table 5.1	ANOVAs for differences among sites and years in concentrations of four contaminants in mussels .....	203
Table 5.2	Comparison of temporal trends using adjusted and unadjusted bivalve data .....	207
Table 5.3	ANOVAs for differences among sites and years in concentrations of four contaminants in oysters .....	212
Table 5.4	ANOVAs for differences among years in concentrations of four contaminants in clams....	212

### **Chapter 6: Pilot and Special Studies**

Table 6.1	Flows at the gauging stations on the EIP streams and tributaries .....	223
Table 6.2	Pearson correlation coefficients r .....	230
Table 6.3	Fish contamination core monitoring program sampling design .....	242
Table 6.4	Summary statistics by species for mercury and organochlorines .....	244
Table 6.5	Summary of concentrations above screening values for each species.....	244

### **Chapter 7: Related Monitoring Activities**

Table 7.1	Common and minor foraminiferal species recovered in the RMP samples .....	252
Table 7.2	Speciation and concentration of nickel in San Francisco Bay .....	260

### **Chapter 8: Other Monitoring Activities**

Table 8.1	Fish tissue mercury and organochlorine results for the 1997 SRWP .....	267
