

## Welcome

9:00 Mike Connor, SFEI

### Topic 1: Emerging Contaminants

9:10 David Sedlak, UCB  
**Keynote Presentation**  
**Emerging Contaminants in San Francisco Bay**

9:40 Don Weston, UCB  
**Pyrethroids: A Growing Concern in the Watershed**

10:00 Daniel Oros, SFEI  
**Current Understanding of PBDEs**

10:20 Kelly Moran  
**Preventing Emerging Contaminants**

10:40 Mike Connor  
**Open Discussion with Audience**

### 11:00 Break

### Topic 2: RMP Highlights

11:20 Nicole David, SFEI  
**Contaminant Loads from the Delta in a High Flow Event**

11:40 Jennifer Hunt, SFEI  
**Contaminants in Bay Sport Fish, 2003**

12:00 Ben Greenfield, SFEI and Darell Slotton, UC Davis  
**Spatial and Temporal Patterns in Methylmercury Revealed by Small Fish Monitoring**

### 12:20 Lunch

### Topic 2: RMP Highlights (Continued)

1:20 Jim Cloern, USGS  
**Dramatic Changes in Bay Phytoplankton**

1:40 Meg Sedlak, SFEI  
**Adaptive Monitoring - RMP Highlights, 2006 and 2007**

### 2:00 Break

### Topic 3: TMDLs

2:20 Tom Mumley, San Francisco Bay Regional Water Board  
**Adaptive Management - Water Board Update on TMDLs and Water Quality Objectives**

2:40 Jay Davis, SFEI  
**PCBs in San Francisco Bay: Past, Present, and Future**

3:00 Paul Salop, AMS  
**PCBs in an Urban Watershed**

3:20 Lester McKee, SFEI  
**Evaluating Effectiveness of BMPs to Reduce Pollutant Loads from Urban Runoff**

3:40 Mike Connor  
**WRAP-UP: Open Discussion with Audience**
