#### → Workshops

This year the RMP convened several workshops in effort to keep managers and RMP participants informed of new scientific findings and to provide a forum for discussion with scientists and regulators. The following four workshops/meetings were held – the annual mercury meeting, a pyrethroid workshop; a benthic workshop; and a PAH workshop. (All of the materials from these meetings are posted on our website.)

Do you find these workshops helpful?

Strongly agree Agree
Disagree Disagree strongly

Do you have suggestions on how we can improve these workshops?

Are there other topics that you would like to see the RMP sponsor a workshop on (e.g., cvanide or selenium)?

#### → Research Topics

The RMP is comprised of a long-term monitoring program (Status & Trends) and pilot and special studies that typically change year to year. This year the RMP is re-evaluating the Status & Trends program. A workshop on the redesign will be held September 19th at SFEI.

Are there particular pilot studies/special studies that you would like the RMP to pursue/address? If so, what are they?

Any additional comments on the RMP:

#### → RMP Deliverables

The RMP seeks to provide scientific information through a variety of publications and forums (e.g., conferences, presentations, etc). Please let us know which are most helpful to you and your organization.

#### Pulse

Every year, the RMP releases printed copies of the Pulse publication in time for the Annual Meeting. The Pulse is comprised of select articles regarding issues of concern to the Bay. This publication is also available from our website (www.scie.org).

How relevant is the Pulse to issues that concern you or your organization?

Very relevant Somewhat relevant Not relevant but interesting Not relevant at all

What particular aspect of the Pulse do you find most useful?

Management Section

1 2 3 4 5 6 ... Very useful Somewhat useful Not useful

Status and Trends Section

1 2 3 4 5 6 7 Very useful Somewhat useful Not usefu

Features Section

1 2 3 4 5 6 Very useful Somewhat useful Not usefu

Are there topics that you would like to see covered in next year's Pulse?

-> tear here =

→ Thank you for taking the time to complete this evaluation form. SFEI staff will collect your anonymous survey and your contact information at the end of the day.
