High School or University Student?
Help us learn about the Bay!

Prizes Awarded:
High School: 1st - $500 and 2nd- $250
University: 1st - $750 and 2nd- $250

Evaluation Criteria:
• Quality of graphic or analysis
• Quality of summary/abstract
• Scope of data used

SUBMISSIONS DUE 1/31/2020

FOR FULL CONTEST DETAILS VISIT • WWW.SFEI.ORG/EVENTS/DATACHALLENGE

Scenario:
Imagine you are a public health official in the Bay Area. For public outreach efforts, you need data on where and what types of fish caught in San Francisco Bay are less safe to eat. If possible, you would also like to identify possible ways to reduce fish contamination in the future.

Tasks:
• Choose 2 questions from prompt list, options vary based on education level (see contest webpage for more information - www.sfei.org/datachallenge)
• Dive into the data at cd3.sfei.org (or other optional sources)
• Analyze patterns and relationships in the data
• Create graphics that answer each question and include any necessary captions
• Write a summary that describes the methods used and important findings

Email submissions to rmp-data-challenge@sfei.org
