

## **Selenium Monitoring Workshop Followup**

Oversight group: Selenium Workgroup  
Proposed by: Jay Davis, SFEI

**Funding requested for 2017: \$20,000**

### **Description**

At their May 2016 meeting, the Selenium Workgroup, at the request of the Water Board, discussed the need to develop a technical consensus on a robust suite of trend indicators of selenium impairment in the North Bay. The goal is to identify leading indicators of change to allow prompt management response to signs of increasing impairment. Of particular concern are the possible impacts of changes in hydrology in the Delta or changes in selenium loads to Bay-Delta tributaries in the Central Valley. A technical workshop on this topic will be convened this summer. This funding request is a placeholder that will allow for followup activities stemming from the workshop. The funds could be used for additional planning or to augment existing monitoring to address high priority information needs.
